License Management

- R2015b network licenses require a license server running FLEXnet v11.13, which is provided by the MathWorks installer. A license server that is enabling multiple releases of MATLAB must use the version of FLEXnet shipped with the latest release of MATLAB enabled by that license server.
- Starting with R2016a, the License Manager is not available for 32-bit Windows.

Support for Products on Operating Systems No Longer Supported

If you are enrolled in *Software Maintenance Service*, MathWorks will respond to technical questions and provide workarounds when possible for a period of two years from the date when MathWorks ended support for an operating system. See the *platform road map* for more information.
